

it was certainly a good messenger who brought the news to your house that Ayer's Sarsaparilla makes the blood "rich and red." This means so much to those who are thin, pale, feeble, weak, and nervous. After Ayer's Sarsaparilla has cured you, carry the glad message to a friend or neighbor.

Perhaps you suffer from the effects of a warm climate. Prolonged warm weather seriously impairs the strength of many people. The digestion is alow, and the liver becomes sluggish. Impurities in the blood accumulate and cause that feeling of downleartedness and depression.

AYER'S

is of the greatest use in such cases. Its purifying, strengthening, and upbuilding properties will be of inesti-mable value to you.

As now made, Ayer's Sarsaparilla contains no alcohol.

There are many imitation Sarsaparillas.

Be sure ;ou get "AYER'S."

(Continued from Page One.) ill in the last few days and was unable to go to any of the ceremonies, but he made a final effort and was taken by motor to the cemetery where he wit-

nessed the interment of the remains. George Beckley comes from a dis tinguished line of ancestors and on both his father's and mother's side was a descendant of Liloa, the first king of Hawaii. He was a great-grandson of Kameeiameku, one of the warrior

The Boardwalk Bureau Will Be Moneymaker-"Prince Bert" Heard From.

While the letters of Secretary H. P. Wood of the promotion committee and chamber of commerce from Atlantic City are not full of big figures indicating heavy receipts from the sale of pineapples and pineapple juice, yet they all bear an optimistic tone, and, after all, the lack of bir receipts all along the Boardwalk this year, must be porter of an upstate newspaper to the blamed on the bad weather, with weeks | stage where he was handling the stocks of cloudy, muggy weather, rain and a disagreeable condition all along the Coast. He has figured it out, however, that the receipts will come as soon as the real warm weather wave hits the Boardwalk, and that when the Hawaiian singing boys are pan, that the receipts will leave a balance on the proper side of the ledger.

The promotion committee yesterday expressed themselves individually and collectively of the opinion that the money would be forthcoming, and that Mr. Wood expected to have the coin fairly rolling into his coffers, long before it should.

However, Mr. Wood believes that the Boardwalk bureau is one of the best schemes hit upon for advertising the Hawalian Islands and he believes the tide of travel will be largely on the increase.

As to the singing boys, Mr. Wood says they are a big attraction, but that the expense of keeping them there can the expense of keeping them there can be dispensed with when the season is over, and when new singing boys are wanted, they can be picked up in New York. There were about twenty-five in the metropolis at the time he wrote, all of whom were out of employment. The committee discussed briefly the action of the chamber of commerce in turning down the request of the National Commerce of the Commerce of the National Commerc

turning down the request of the Nacial help to swing a side frip down here after the convention is over in California, The promotionists were sorry, but as one of the parent bodies had turned its thumb down, there was

had turned its thumb down, there was no more to say.

A letter from Bert Peterson, dated New York, addressed to George Lycurgus was read. "Princa Bert" recommended that several views of Hawaii, including photos of hotels, street scenes, street car service, etc., be sent on to the editor of Atlantis, a Greek paper published in New York, for use in advertising the Islands. The letter-head of Mr. Peterson shows he is in partnership, the firm name being Peterson and Hancberg, City of Mexico-New York, and the features of their business are immigration, colonization, agriculture immigration, colonization, agriculture and irrigation. Mr. Peterson is reported to be doing well in both cities.

Most of the business of the session

was taken up with routine business, authorizing the payment of bills and the reading of letters.

PHONEY BOOZE HAS PASSED IN HONOLULU

yesterday showed that the days of 'phoney booze'' for Honolulu are over so long as the present lignor law is in so long as the present liquor law is in force and there are men on the board sales. After a brilliant start the com of commissioners to properly enforce it. pany landed in the hands of a receiver The license provisions are that all adul. The collapse of this company temporari terated, rectified, mixed or imitation by checked Burlingame's rise. liquors shall be labeled with a red label lettered with big black letters, so that any patron of the bars who is able to see anything can not fail to see the label on the bottle from which his 'just one more'' is being poured. There are no bottles so labeled and no faked

booze improperly labeled.

The rectifiers and the wholesalers who have handled this "rot gut" are the hardest hit. The saloons simply dumped back on them all their phoney stock and the wholesalers have it on their hands, being unable to sell it unless they break their solemn word to the board. As the breaking of that solemn word and being caught at it is not only a breach of the commandment Stock was sold on the promise that reagainst lying but a grounds for the frigeration would be furnished at so against lying but a grounds for the cancellation of licenses, it is fairly certain that there will be no breach. The only thing to do with the "dead" stock, therefore, will be to give it away or send it to the Coast, where it may do its good work of killing without investigation by any Hawaiian "The "Heel Cushion Company." After the Right Remedy Company." After wash senset in the profits of the cortain would be over 100 per cent.

Two other "Arabian Night" enterprises in which Burlingame became most active before he loft Boxton were it may do its good work of killing the Heel Cushion Company." After "The Right Remedy Company." After

Scheme to Defraud the Public Was Defeated by the Arrest of Principals.

NEW YORK, July 3 .- The secret plans, of an "Aladdin and the lamp" scheme to form a \$50,000,000 wireless trust in which Elmer E. Burlingame was to be king, was learned last week Facts were also made public concern ing the geyser like career of Mr. Burlingame from the time he was a re

of a chain of companies with a total enpitalization of \$75,000,000. The wireless trust was to be known as the "Universal Wireless Company." It was to take over the following porations: The United Wireless graph Company, capitalization \$20,000, 000; the North American Wireless Tele graph Company, capitalization \$10,000,-000; the Continental Wireless Te'egraph and Telephone Company, capitalization \$5,000,000; the American Marconi Company, capitalization \$6,500,000. The great bubble was burst by the arrest of Christopher C. Wilson, president, and Samuel S. Bogart, vice president, of the United Wireless, and Wm. M. Tompkins, former president of the now defunct New York selling agency of wireless stock. less stock.

Methods Remarkable.

Since the exposure of Mr. Burlingame's \$10,000,000 group of wireless telephones and his \$5,000,000 Sun Electrie Generator Company, which boast-ed of an invention to transform solar heat into unlimited light and power, a number of men have come forward with

number of men have come forward with information concerning the remarkable promotion methods of this man.

W. A. Patten, a former employe of Burlingame, stated in the presence of three witnesses that the storage battery of the Sun Electric Generator Company's plant in Maiden Lane was charged from wires of the Edison Company. Hundreds of investors in Sun Electric stock have been told that the machine on the roof of the company's laboratory furnished the power used in the demonstrators. It was because of these apparently successful tests that they bought stock.

It was learned that a prominent actor

It was learned that a prominent actor who at one time starred with Ada Rehan, purchased \$11,000 of Burlingame's wireless telephone stock. Having decided that the stock was worth-less he placed his case in the hands

less he placed his case in the hands of an attorney. Another investor in the stock is said to be an assistant secretary of the navy.

According to Mr. Patten's figuring it would take at least 10,000 square feet of plugs, numbering 1,600,000 plugs, to attract enough heat from the sun to light five incandescent lamps of 16-candle power. The company of 16-candle power. The company claims to be able to do this with the forty-eight square feet of antimony and zine plugs which it has on the roof of No. 120 Maiden Lane. The cost to light these five lamps, according to Mr. Patten's estimate, would be \$24,

To understand how Burlingame believed himself able to float a \$50,000 .-000 wireless trust, it is necessary to follow his career since 1887, when he left the Elmira Telegram, where, besides reporting, he had charge of a chess column and a juvenile page.

After quitting newspaper work he was next heard from in 1890 in the Pioneer Mill Co 6 p c 1.250,000 Walalus Ag Co 5 p c. 1.407,000 Granite State Provident Association, a An inspection of the local saloons building and loan company of New sum in addition to bonuses on stock

Other Big Schemes.

G. P. Stewart, the organizer of the Granite State Provident Association was arrested. Later Stewart started a string of "get rich quick" concerns, among which the best known was "The American Investors Trust." which had offices in Pittsburg. In 1893 he became vice-president of the Atlan-tic & Pacific Raifway Tunnel Company, of which Mark N. Pomeroy of Boston was chief promoter. The scheme was to tunnel the Rocky Mountains and exca-vate enough gold and silver from the diggings to pay the cost of the rail road. Then came the Polaris Company, based on claims almost as pretentions.

The only baking powder made with Royal Grape Oream of Tarter No Alum, No Lime Phosphate
